Anthropology

Anthropology (BA)

SLO-01: Communication
Students will be able to produce a major document in the relevant anthropological style with the aid of references.

SLO-01: Written Communication
Students will be able to produce a major written document in at least one anthropological subdiscipline in AAA format that exhibits appropriate citations from the primary anthropological literature, and demonstrates clear writing and a coherent argument.

SLO-02: Critical Analysis
Students will be able to analyze arguments in the Anthropological literature with the aid of references and provide a logical rationale for interpretation.

SLO-02: Critical Analysis
Students will be able to read, critically analyze, and coherently discuss arguments in the recent anthropological literature of at least one subdiscipline.

SLO-03: Research
Students will be able to synthesize a variety of anthropological ideas and data in order to independently create an anthropological research project in either a library, field, or applied setting.

SLO-04: Oral Communication
Students will be able to communicate the results of an independent anthropological analysis in a public presentation with appropriate graphics.

SLO-04: Oral Communication
Students will be able to communicate anthropological conclusions in a public forum.

SLO-05: Research
Students will be able to synthesize a variety of anthropological ideas and data in order to independently create an anthropological research project in either a library, field, or applied setting.

SLO-05: Theory
Students will understand anthropological theory as well as the historical context in which that body of theory has developed.

**SLO-06: Application of Theory**
Students will apply theoretical concepts from the anthropological literature to data (from the literature or collected by the student) in order to evaluate the data’s anthropological significance and meaning.

**SLO-06: Theory and Application**
Students will be able to analyze anthropological theory and abstractions with the aid of references and provide a logical rationale for their interpretation.

**SLO-07: Study Abroad or Field Experience**
50% of students will have a Study Abroad or field work experience.

**SLO-08: Computer Skills**
Students will understand relevant computer skills in order to create a professional quality presentation (either a series of slides or a poster) demonstrating the results of an independent research project.
