Kinesiology

Kinesiology - Athletic Training (MSAT)

SLO01: Appropriate Healthcare in 5 Practice Domains of Athletic Training
Students will pass the BOC examination and demonstrate entry-level competency by performing at or above the national average in the areas of prevention and wellness; clinical evaluation and diagnoses; immediate and emergency care; treatment and rehabilitation; and administration, organization and professional health care.

SLO02: Appropriate Healthcare Treatment for Body Regions, Patient Populations, Clinical Settings
Students will demonstrate entry-level competency for patient care and clinical decisions on body regions, patient populations, and clinical settings.

SLO03: Interpret and Apply Evidence-based Medicine to Practice
Students will understand and apply the principles of evidence-based practice by becoming a consumer of literature and performing at a beginning professional level when presenting capstone experiences.
