Student Learning Outcomes

University of North Carolina at Greensboro

Provost & Academic Affairs

College of Arts and Sciences

Physics & Astronomy

Physics (BA)

SLO01: Basic Scientific Principles
Students will demonstrate an understanding of the principles and scientific foundations of physics and astronomy.

SLO02: Role of Physics & Astronomy in Society
Students will be able to articulate the role of physics and astronomy among the sciences and in society.

SLO03: Application of Current Technology
Students will be able to apply current technology to problem solving and communication.

SLO04: Problem Solving
Students will be able to demonstrate problem solving skills in the areas of physics and astronomy.

SLO05: Experimental Physics Techniques
Students will be able to demonstrate methods and techniques of experimental physics.

SLO06: Communication Skills
Students will be able to communicate scientific ideas effectively in writing and speaking.
